

NIKITA PARESH GAVHALE

Front End Developer | React Developer

+91 8767535422 nikitagavhale97@gmail.com Thane, Maharashtra

SUMMARY

Frontend Developer with 5+ years of professional experience building responsive, user-friendly, and visually appealing web applications. Skilled in HTML5, CSS3, JavaScript (ES6+), REST API integration, and creating pixel-perfect interfaces from Figma designs. Experienced in responsive design, cross-browser compatibility, and collaborating with cross-functional teams in Agile environments. Currently expanding expertise in React.js, TypeScript, Redux, and Tailwind CSS while building modern frontend applications and enhancing UI development skills.

EXPERIENCE

Senior Analyst

eClerx

09/2024 - 03/2026 Navi Mumbai

- Managed, updated, and published website content using a CMS tool for a large-scale production environment.
- Translated Figma UI designs into responsive CMS components and web pages with pixel-perfect accuracy.
- Used JIRA for sprint tracking, task management, workflow visualization, and cross-functional team collaboration
- Ensured content accuracy, UI consistency, and quality across all CMS-published pages.
- Coordinated with design and QA teams to deliver error-free, responsive, and visually consistent deliverables.

UI Developer

Ixia Solution LLP

11/2022 - 12/2023 Navi Mumbai

- Built responsive web pages adapting seamlessly to desktops, tablets, and smartphones using CSS media queries.
- Diagnosed and resolved layout inconsistencies, JavaScript errors, and cross-browser compatibility issues using browser DevTools.
- Managed code repositories using TFS and Git/GitHub; raised and reviewed pull requests following best practices.
- Created visual documentation (flowcharts, architecture diagrams) using draw.io for stakeholder communication.

Web Developer

Konverge Technologies Pvt Ltd

09/2021 - 11/2022 Goregoan

- Installed, configured, and customized open-source HRMS (OpenCATS) to meet organizational HR requirements.
- Designed relational database schemas optimizing data integrity, performance, and scalability.
- Created draw.io diagrams for software architecture, workflows, and data flows.

Web Developer

NP Infosec

11/2018 - 08/2020 Shahapur

- Designed, implemented, tested, and maintained web pages and software per client requirements.
- Developed REST APIs for Android application integration and resolved legacy code bugs.
